NEUTRAL

DETERGENTS

Lubricity

High Foaming Detergent Plus Lubricants For Tunnel Systems

WHAT IS LUBRICITY?

A vibrant high foaming liquid detergent that provide lubrication and protection to any brush or cloth system to help eliminate scratching and friction. Contains special glycols that keep brushes from sticking or over rubbing surfaces. The high foam is stable and very easy rinsing. As foam runs off, dirt is carried away with it without worry of This product can be applied through a foamer or onto the bristles as a direct lubricant. Formulated with ecco rinse technology.

PRODUCT BENEFITS:

- ★ Neutral pH will not interfere with other products.
- ★ High foam level provides optimum customer approval.
- ★ Contains special lubricating agents for improved performance.
- ★ Helps prepare surfaces for protectant applications.
- ★ Safe to handle and store.

Use Recommendations:

- Tunnel Wash Applicators
- Automatic or Rollover Systems

Dilutions:

Touchless Presoak: 1:150-1:300

Automatic or Rollover: 1:150-1:300

| 4650-5.25 | 2x2.5 Gallon Jugs |
| 4650-5 | 5 Gallon Plastic Pail |

ecco rinse technology
rinse less, use less

What is ecco rinse technology?

A specially formulated blend of detergents to simplify and expedite the rinsing process after chemicals have been applied. With specially chosen detergents, produces flash foam quickly then begin defoaming quickly requiring lower amounts of water to rinse, resulting in less wastewater and lower water bills.
