

High Pressure Performance Cleaners

# Rest Con

## Concrete Cleaner & Restorer

CORE 3

### **Core 3: Personal Attention**

*Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.*

### **Core 3: Experience**

*With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.*

### **Core 3: Technology**

*Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.*

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

# CONCRETECARE

## Rest Con

### Concrete Cleaner & Restorer

#### What is Rest Con?

A non hazardous concrete cleaner and brightener. Formulated for cleaning of new masonry and concrete. This product is safe to use and store and contains no harsh odors. Used as described, in the directions, there should be no significant impact on the plants or soils of the job site but protecting landscape should be taken. Rest Con is safe for virtually any type of brick, block, stone, or pre-cast. Rest Con will solve a host of problems including efflorescence, lime putty, and most mineral stains.

#### Benefits:

- Excellent for removing virtually all stains, including mineral oxide stains, environmental pollution stains, and rust.
- Spray-on/rinse-off application process improves productivity. No scrubbing required.
- Restoration using one product simplifies the process and reduces protection requirements.
- Ideal for deep stain removal from porous substrates.

#### Instructions:

Before using, make sure that the desired surface is cool to prevent early evaporation. Read MSDS and test in a small inconspicuous area.

#### Pretreat:

Protect adjacent surfaces and surrounding building hardware not intended to be cleaned from exposure to the cleaning solution. Avoid direct contact with foliage. Cover landscape using plastic or wet the foliage with water before and after cleaning. Do not leave plastic on foliage for extended periods of time. Avoid wind drift on surrounding surfaces as well as auto and pedestrian traffic.

Use Instructions: Pre-wet the surface (do not saturate) with water before applying. For best results, apply with a low pressure sprayer (brushing is not necessary). For the majority of instances, a single application with a 5 to 10 minute dwell time will remove many of the stains. For deeper stains or very porous surface, a double application with 5 to 10 minutes in between applications will provide the best results. Do not rinse between applications.

Rinsing: Rinse with cold water covering all the surfaces cleaned. Do not use a zero degree nozzle as streaking may occur.

#### Available Packages

0511-275	275 Gallon Tote
0511-55	55 Gallon Plastic Drum
0511-30	30 Gallon Plastic Drum
0511-15	15 Gallon Plastic Drum
0511-5	5 Gallon Plastic Pail

#### Tech Specs:

Color.....Clear  
 Fragrance.....Faint  
 Form.....Liquid  
 Phosphates.....None  
 FlashPoint.....212F  
 pH.....2-3  
 Specific Gravity.....1.02  
 Viscosity.....Thin  
 Foam.....Moderate  
 Shelf Life.....1 Year
