Premium One Step Truck & Fleet Wash

What is Dazzle?

A Liquid deep penetrating one step detergent that will remove heavy dirt and road film from painted and aluminum surfaces. Will promote oxidation removal while leaving a sheen on the vehicles surface. This product is ideal for truck wash operators who are looking for a product that is both heavy duty and will not in any way harm polished aluminum.

Benefits:

- Formulated for the cleaning professional and automated truck wash systems.
- Penetrates deep for easy removal of surface dirt.
- Safe on all paints and polished aluminum.
- High foaming to carry away all surface debris.
- Rinsing is done with less time and less water.
- Watch water "sheet" from the vehicles surface.
- Dry residual can be easily rinsed off.

Instructions:

Always read the SDS before handling this or any chemical. Always prewet surfaces before applying chemical. Apply recommended dilution of chemicals to the surface from the bottom to the top of vehicle. Brushing may be required if there is a heavy build up of road film. Before the detergent has the opportunity to dry, rinse with fresh water from the top down, removing all the detergent. Allow to dry.

Dilution Recommendations:

Truck Washing	40-80:1
Bus Washing	40-80:1
Surface Cleaning	40-80:1
