Extract

Carpet & Upholstery Extraction Shampoo

CORE 3

Core 3: Personal Attention

Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.

Core 3: Experience

With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Core 3: Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

CARPET CARE

Extract

Carpet & Upholstery Extraction Shampoo

What is Extract?

A special blend of professional-strength detergents and a combination of additives that penetrate and break down oil- and water-based soils so they can be easily flushed away. They also added outstanding anti-resoiling agents specifically designed to keep carpet cleaner longer. The fast-acting formula gives carpet the new look your customers love.

Benefits:

- Environmentally formulated.
- Formulated with proper pH for safe use on most wet cleanable carpets and upholstery.
- Contains brighteners to enhance carpet appearance.
- Fast breaking formulation.
- Will suspend oils and dirt to prevent redeposition.
- Cleans and brightens all types of synthetic & natural fibers.

Directions For Use:

1. Prepare the Area: Remove any obstacles and vacuum the carpet thoroughly before using the extractor. This helps in better cleaning and prevents clogging the machine.
2. Dilute: Mix 1 ounce of Extract with each gallon of hot water for normal cleaning of carpets. Double strength applications may be used to remove soils from synthetic carpets. However, caution is advised before applying increased strengths on natural fiber carpets such as wool.
3. Test a Small Area First: Before cleaning the entire carpet, test the cleaning solution on a small, inconspicuous area to check for any adverse reactions like color fading or damage.
4. Follow Proper Technique: Start from the farthest corner of the room and work your way towards the door to avoid stepping on the freshly cleaned carpet. Overlapping strokes can ensure thorough cleaning.
5. Proper Drying: Allow the carpet to dry completely before walking on it again. Ensure good ventilation in the room to speed up the drying process and prevent mold and mildew growth.

Tech Specs:

Color.....Blue
 Fragrance.....Spearmint
 Form.....Liquid
 Phosphates.....None
 FlashPoint.....212F
 pH.....10
 Specific Gravity.....1.02
 Viscosity.....Thin
 Foam.....Moderate
 Biodegradable.....100%
 Shelf Life.....1 Year

Available Packages

1302-275	275 Gallon Tote
1302-55	55 Gallon Plastic Drum
1302-30	30 Gallon Plastic Drum
1302-15	15 Gallon Plastic Drum
1302-5.25	2x2.5 Gallon Jugs
1302-5	5 Gallon Plastic Pail
1302-4	4 Gallon Case
