CARPET CLEANER

One

Powdered Extraction & Truckmount Detergent

CORE 3

Core 3: Personal Attention

Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.

Core 3: Experience

With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Core 3: Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

CARPET CARE

One

Powdered Extraction & Truckmount Detergent

What is One?

A high performance, powdered carpet extraction shampoo that has been designed to remove the toughest stains and soils from all types of carpets. Formulated especially for Truck Mounted Injection Extraction units. Contains a highly concentrated blend of detergents, alkali and brighteners. Pleasantly scented to leave rooms smelling clean.

Benefits:

- Designed for use with extraction machines and steam cleaning units.
- Fast breaking formulation.
- Formulated with special easy rinsing low foaming surfactants.
- Cleans and brightens all types of synthetic & natural fibers.

Directions For Truck Mount Use:

1. Carpet Preparation: Pre-vacuum the area to remove loose dirt and debris. Pre-treat any stubborn stains or high-traffic areas for better results.
2. Adjust the water pressure and detergent flow based on the carpet type and level of soiling.
3. Add 1/2 pound of detergent to 5 gallons of water. Set chemical flow meter to 2 gallons per hour. The flow meter can be increased slightly if more chemical is desired.
4. Effective Technique: Use overlapping passes to ensure thorough cleaning without missing any spots.
5. Use air movers or fans to speed up the drying process after cleaning. Advise clients to avoid walking on the carpets until they are completely dry to prevent re-soiling.

Note: if cleaning solution is to be applied directly to the carpets, dilute 1 part Truck Mount with 320 parts water.

Tech Specs:

Color.....White
 Fragrance.....Fresh
 Form.....Powder
 Phosphates.....None
 FlashPoint.....212F
 pH.....9-10
 Specific Gravity.....NA
 Viscosity.....Free Flowing
 Foam.....Moderate
 Biodegradable.....100%
 Shelf Life.....1 Year
