1532 Bug Remover

Bug & Protein Remover

Removes Bugs, Proteins From Bumpers & Clearcoats

What is 1532 Bug Remover:

Bug guts are extremely acidic and can eat through your paint's clear coat if left to fester. The secret? A quality bug remover that breaks down bug proteins and neutralizes the acidity to protect your paint job. Safe and effective on all surfaces, including polished aluminum! Our Bug Remover allows you to transform your bug covered vehicle into something spotless with minimal effort.

With this fast-acting alkaline solution, bug remains don't stand a chance. It's ready to use straight from the bottle. Simply spray some onto any surface, let it sit for 1-2 minutes, gently brush/mitt clean, and rinse!

Product Use Benefits:

- Deep cleaning.
- Non hazardous.
- Cleans a variety of surfaces.
- Quick & easy rinsing.
- Can be used on floors and engines too.

Application Instructions:

For best results, do not apply in direct sunlight and make sure the surface is cool to the touch before applying. Shake well.

Spray onto the surface, working one section at a time. Use a clean microfiber towel to gently wipe the area clean.
