Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to made sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

FLOOR CLEANER

Clean & Shine

Concentrated Floor Cleaner & Maintainer

What is Clean&Shine?

CLEAN & SHINE is the ultimate companion to any high speed maintenance program. This amazing product will clean and restore any acrylic floor finish in one easy, time saving step. Simply apply to floors through an auto scrubber or mop, let dry and then burnish to a high gloss shine. Designed to be extremely responsive to conventional and high speed burnishing equipment. Regular use of this product keeps floors looking great day after day.

Benefits:

- Cleans and restores in one, easy step
- Restores high gloss shine to acrylic floor finishes.
- Extremely effective against black heel marks

Directions For Use

Before using, make sure that the desired surface is cool to prevent early evaporation. Read SDS and test in a small inconspicuous area.

TO CLEAN AND CONDITION FLOORS:

Use 4 to 8 ounces of Clean & Shine Concentrate per Gallon of water. Apply solution with a damp mop, making up fresh solution as needed. Can also be applied through an automatic scrubber. Do not rinse floor after using.

TO REPAIR SCUFF AND BLACK-HEEL MARKS IN HEAVY TRAFFIC AREAS:

Spray full strength Clean & Shine on the marks with a trigger sprayer as you buff, or rub marks with a white pad while mopping. After floor has dried, buff to restore gloss.

Tech Specs:

Color.....Pink
