Core 3:Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

PARTSWASH

Parts Wash HD

Low Foaming Heavy Duty Parts Wash

What is Parts Wash HD?

A powerful powdered product which encourages oil and grease to "split" to the top of the containment vessel after use. Parts Wash Plus is specially formulated to clean metal parts without the aid of hazardous solvents or other hazardous materials and when used as directed, will remove heavy grease and grime. This product been specially formulated to be low foaming for use in industrial mechanical spray wash machines.

Benefits:

- Low foaming for use in rotary and mechanical spray wash machines.
- Will not harm metals or painted parts, or aluminum.
- Promotes splitting of oils for enhanced clean up.
- Contains special buffering ingredients to protect metals against corrosion.
- This product is 100% biodegradable for easy disposal.
- Designed specifically for the cleaning professional.

Instructions:

Before using, make sure that the desired surface is cool to prevent early evaporation. Read SDS and test in a small inconspicuous area.

Soak tank: Use 1/2 to 1 pound of product per gallon of water, depending on quality of parts being cleaned.

Spray Cabinet: Use 1/4 to 1/2 pound of product per gallon of water, depending on quality of parts being cleaned. Blow dry with compressed air.
