CORE 3

Core 3: Personal Attention

Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.

Core 3: Experience

With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Core 3: Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

DESTAINER

GreenDestainer

Environmentally Formulated Laundry Destainer

What is Green Destainer?

This environmental preferred laundry destainer utilizes the power of oxygen to quickly lift and eliminate stubborn stains. It is gentle on fabrics and safe to use on all of your colors. When used with Syntec's Green Laundry Detergent & Green Laundry Softener, the product conforms to DFE standards.

Instructions:

For institutional or commercial use.

Separate laundry into different classifications. DO NOT OVER-LOAD!! Add the appropriate level of Destainer per 100wt of laundry:

Light Soils 2-4 oz.

Medium Soils 4-6 oz.

Heavy Soils 6-8 oz.

EPA/Safer Choice recognition does not constitute endorsement of these products. The Safer Choice logo signifies that the products' formulas, as Synthetic Labs has represented it to the EPA, contain ingredients with more positive human health and environmental characteristics than conventional products of the same type. EPA/Safer Choice relies solely on Synthetic Labs, its integrity and good faith, for information on the products' composition, ingredients and attributes. EPA/Safer Choice has not independently identified, that is, via chemical analysis, the ingredients in the products' formula, nor evaluated any of Synthetic Labs' non-ingredient claims. EPA/Safer Choice provides its evaluation only as to the products' human health and environmental characteristics, as specified in the Standard and based on currently available information and scientific understanding.
