# DISH DETERGENT

## Converge

### Automated Dish Detergent & Builder

#### What is Converge?

Converge is a hybrid product that is both a premium warewashing detergent designed for automatic dish machines, and a laundry builder that prepares fabric in the wash wheel to be washed. By raising the pH of the wash water, in both warewashing and laundry, entrapped soils & greases begin to be released from all surfaces.

#### Instructions:

For institutional or commercial use.

Consult your local representative for specific use instructions.

**Dish:** Use 8-10 ml. per rack during the washing cycle.

**Laundry:** Use 2-4 oz. per 50 wt. laundry during the suds cycle.

EPA/Safer Choice recognition does not constitute endorsement of these products. The Safer Choice logo signifies that the products' formulas, as Synthetic Labs has represented it to the EPA, contain ingredients with more positive human health and environmental characteristics than conventional products of the same type. EPA/Safer Choice relies solely on Synthetic Labs, its integrity and good faith, for information on the products' composition, ingredients and attributes. EPA/Safer Choice has not independently identified, that is, via chemical analysis, the ingredients in the products' formula, nor evaluated any of Synthetic Labs' non-ingredient claims. EPA/Safer Choice provides its evaluation only as to the products' human health and environmental characteristics, as specified in the Standard and based on currently available information and scientific understanding.
