With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Core 3: Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

DETERGENTS

Injectables

Concentrated Fragrances For Injecting Into Carwashes

Differentiate Your Car Wash From The Rest

What are INJECTABLES:

Enhance your wash with Injectables Fragrances. These super concentrated fragrances can be applied multiple ways to freshen your carwash and customers' cars. Apply to vehicles as they pass through the end of the wash, allowing the fragrance to drift into car air vents. These can be used alone, sprayed inside the vehicle or added to carwash chemicals. Passengers will experience the fresh fragrances long after leaving the carwash.

Product Use Benefits:

- Customized and seasonal wash scents.
- Versatile in use.
- Can be applied through a variety of applicators.
- Long Lasting.
- Can be injected into chemical streams.
- Leaves behind no residue.

Use Recommendations:

- Tunnel or Conveyor Systems
- Automatic or Rollover Systems
- Manual Presoak Applicators

Application Instructions:

Inject product directly into the carwash tunnel. A variety of injection pumps may be used. Product can also be injected directly into the chemical stream for added customer satisfaction.
