High Foaming Non Chlorinated Cleaner

CORE 3

Core 3: Personal Attention

Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.

Core 3: Experience

With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Core 3: Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

SURFACE CLEANING

AlkaFoam NC

High Foaming Non Chlorinated Alkaline Cleaner

What is Alka Foam NC?

A heavy duty foaming non-chlorinated cleaner is designed for use in all food processing areas. This highly concentrated cleaner quickly and effectively penetrates and lifts animal fats, proteins, food residues, oil, grease and soap scum. Designed for use in foam generating equipment as well as soak and manual applications. Excellent for removal of carbonized, fatty, proteinaceous and blood soils from floors, walls, and food processing equipment. Great for use to clean down virtually any horizontal and vertical surface. Not for use on aluminum.

Benefits:

- Non chlorinated for easy use.
- Fortified with Sodium Hydroxide for removal of grease & oils.
- Versatile enough to clean virtually any non aluminum surface.
- High foaming for easy use.

Instructions:

Before use, read product label and Material Safety Data Sheet.

Cover or remove all food products from area to be cleaned. Remove gross accumulation of meat particles, soil and other waste materials from surfaces and equipment.

For cleaning kill floors and boning rooms: dilute 1:10- 1:20 with water. For processing equipment and conveyors: dilute 1:20-1:50

For floors and walls: dilute 1:30-1:50 Rinse thoroughly with potable water.

This product will remove many alkyd, lacquer and acrylic-base paints. Preliminary testing should be done before application to such surfaces is considered.

Do not use on aluminum, tin or zinc-plated surfaces. Pitting or surface deterioration may result.
