What is Showtime?

Common complaints amongst house washing professionals are that the cleaners they are using foam but don't clean well and when used with chlorine, the smell of chlorine can be overpowering. Showtime is a revolutionary new product formulated for the house and roof washing professional to combat these complaints. Showtime is so much more than just a foam additive. For mold and mildew remediation Showtime can be added to a hypochlorite solution to prolong its effect while allowing in many cases the concentration of bleach to be cut in half. The special foamers in Showtime allow bleach to dwell longer, which allows for more effective results, increased performance and a lower chemical use. For applications that don't require the use of Bleach based products, Showtime will clean exterior wood and vinyl surfaces to remove dirt, debris, and other environmental debris. Showtime is formulated with **Odor Guard Technology** for added performance.

What is **ODOR GUARD**? Odor Guard is a revolutionary new way to control and combat malodors control powerful bleach odors when cleaning. Most products contain perfumes and deodorizer packages that just cover up or mask odors which quickly return. Odor Guard takes things to a new level using new encapsulating technology to encapsulate and block odors. Once odors are encapsulated they can't be released which means areas stay fresh much longer. Odor Guard leaves areas smelling fresh long past the cleaning process.

Benefits Of Using Showtime...

- High active foam levels.
- Keeps bleach wet longer allowing it to be more effective.
- Allows for use of more diluted bleach solutions.
- Can be used on both exterior siding and roofs.
- Contains Odor Guard Technology that help combat bleach odors.
- Product penetrates dirt and foam carries it away.
- Formulated to be Environmentally Safe & Biodegradable.
- Available in a variety of powerful fresh fragrances.

Roof Washing	50-64 Ounces	24-32 Ounces	4-6 Ounces
Ounce Conversion	1/2 Gal=64 ounces	1 Qt=32 Ounces	1 Cup=8 Ounces

NOTE: Before using any solution that contains bleach (Sodium Hypochlorite) make sure all applicators, tanks, and storage containers are approved for use with bleach and contain the appropriate venting devices. If you are unsure if any device being used is appropriate for use with bleach, DO NOT USE IT until you contacted the supplier of the machinery and containers. Misuse and incorrect storage of bleach solutions are considered dangerous and detrimental to health and safety of the user. Showtime is for outside use only. Do not use inside.

It is recommended to use up all ready made solutions that contain bleach (sodium hypochlorite) and not store them. Make sure to always have a vented bung or cap on any container that contains bleach and that the storage container is approved for use with bleach. Without venting, containers may expand, crack, and in some cases burst. Make sure to always have adequate ventilation. If proper ventilation is not available, do not apply product.
