

Food Service & Restaurant Cleaning Solutions

Eco Scale

Environmentally Preferred Descaler

CORE 3

Core 3: Personal Attention

Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.

Core 3: Experience

With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Core 3: Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

DESCALER

Eco Scale

Environmentally Preferred Descaler

What is Eco Scale?

Eco Scale is use for descaling and deliming dishwashers and steam tables, cleaning stainless steel and aluminum, and descaling coffee urns. This acid based cleaner is great for all your mineral and lime removing needs. Will not harm stainless steel or glass.

Use Instructions:

For institutional or commercial use.

DO NOT MIX WITH OTHER CHEMICALS

Before use, read product label and Safety Data Sheet.

Consult your local representative for specific use instructions.

Make sure to use proper protective clothing when applying handling this chemical.

Descaling Procedures:

1. Empty the dishwasher completely before starting the descaling process.
2. Clean the bottom filter by removing it from the dishwasher, rinsing it under hot tap water, and scrubbing it gently with a toothbrush and a non-corrosive dishwashing detergent.
3. Add 40 to 64 ounces of descaling solution to the tank inside the machine. If unsure on amount to be added or where to add the solution, please contact your representative for guidance. DO NOT attempt to decalc the machine if you are not experienced at doing so.
4. Run for 10-15 minutes. Make sure there is adequate ventilation in the room to eliminate any fumes caused by the descaling. Once the cycle is done, wait to open the machine. Once it is safe to open, leave the dishwasher open overnight to ensure any remaining odors dissipate.

EPA/Safer Choice recognition does not constitute endorsement of these products. The Safer Choice logo signifies that the products' formulas, as Synthetic Labs has represented it to the EPA, contain ingredients with more positive human health and environmental characteristics than conventional products of the same type. EPA/Safer Choice relies solely on Synthetic Labs, its integrity and good faith, for information on the products' composition, ingredients and attributes. EPA/Safer Choice has not independently identified, that is, via chemical analysis, the ingredients in the products' formula, nor evaluated any of Synthetic Labs' non-ingredient claims. EPA/Safer Choice provides its evaluation only as to the products' human health and environmental characteristics, as specified in the Standard and based on currently available information and scientific understanding.

Tech Specs:

Color.....Blue
 Fragrance.....Odorless
 Form.....Liquid
 Phosphates.....None
 Flash Point.....No Data
 pH.....2-3
 Specific Gravity.....1.04
 Viscosity.....Thin
 Foam.....Low
 Biodegradable.....100%
 Shelf Life.....Apx. 1 Year

Available Packages

6341-55	55 Gallon Plastic Drum
6341-30	30 Gallon Plastic Drum
6341-15	15 Gallon Plastic Drum
6341-5	5 Gallon Plastic Pail
