

DRAIN CARE

Drain Magic

Enzymatic Drain & Grease Trap Cleaner

CORE 3

Core 3: Personal Attention

Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.

Core 3: Experience

With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Core 3: Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

DRAIN CLEANER

Drain Magic

Enzymatic Drain and Grease Trap Cleaner

What is Drain Magic?

A modern environmentally designed formulation to unclog drains and prevent organic deposit build-ups without the use of caustics, acids, solvents, or any regulated hazardous ingredients. Enzyme/bacteria mixture selected for optimum effectiveness of dissolving and liquefying grease, fat, oil, protein, starch, cellulose. The liquefied organic matter can then be "eaten" by the bacteria. Drain Magic temporarily coats pipes and drains with a thin film that continues to minimize deposits. (Regular use is suggested.)

Benefits:

- Formulated For The Food Industry.
- Naturally Lifts Grease from lines.
- Breaks Down Clogs and Buildup.
- Can Be Used To Clean Floors.
- Contains No Harsh Or Abrasive Chemicals.
- All Natural.

Instructions:

Before use, read product label and Safety Data Sheet.

CLOGGED OR SLOW DRAINS: Fill drain with Drain Magic at end of day. If possible, allow to stand overnight, then flush with tap water.

GREASE TRAPS: Thinly cover or coat exposed surfaces with Drain Magic to give nature maximum chance to act on grease at close of business. Repeat daily for maximum effectiveness. If possible, meter at night - there's no danger of combustion or overuse!

SEPTIC TANKS: Add 1 quart for initial treatment. Thereafter supplement 1 ounce per person using the facility weekly.

DRAIN FIELDS/LEACH BED BLOCKAGE: Add 3 gallons into the distribution box, directly into the septic tank, or as the last resort down the drain or toilet closest to the septic tank. Regular additions will keep bacteria cultures intact, reducing solids, and leach fields flowing.

Tech Specs:

Color.....Blue
 Fragrance.....Fresh
 Form.....Liquid
 Phosphates.....None
 FlashPoint.....212F
 pH.....9
 Specific Gravity.....1.02
 Viscosity.....Thin
 Foam.....Moderate
 Biodegradable.....100%
 Shelf Life.....1 Year

Available Packages

1815-275	275 Gallon Tote
