

Complete Automotive Protection

UC Protectant

Undercarriage & Chasis Protectant

CORE 3

Personal Attention

Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.

Experience

With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

PROTECTANTS

UC Protectant

Undercarriage and Chasis Protectant

Provides Long Lasting Metal Protection

What is UC Protectant?

An undercarriage car wash protectant that is applied to the underside of a vehicle to prevent rust and corrosion, especially in areas exposed to road salt and other harsh elements. It works by creating a barrier that repels water, dirt, and road salt, thereby protecting critical components like brake lines and suspension parts.

Product Use Benefits:

- Long Lasting surface protection.
- Contains SIO₂ and TIO₂ nano technology.
- Long lasting protection.
- 100% biodegradable.

Use Recommendations:

- All Wash Systems

Dilutions:

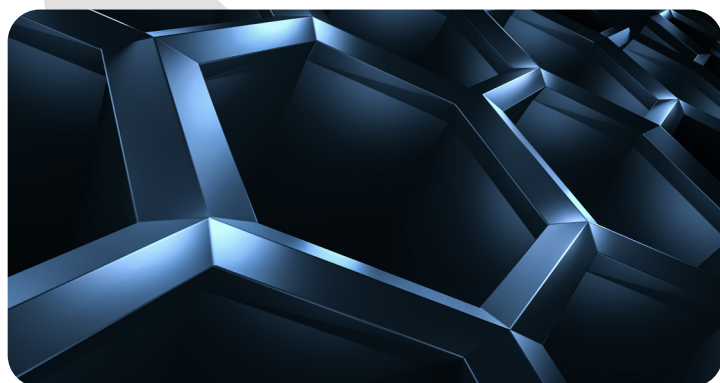

All Wash Systems: 1:300

Available Packages	
4767-275	275 Gallon Tote
4767-55	55 Gallon Plastic Drum
4767-30	30 Gallon Plastic Drum
4767-15	15 Gallon Plastic Drum
4767-5.25	2x2.5 Gallon Jugs
4767-5	5 Gallon Plastic Pail

What is Ceramic GUARD Technology ?

A premium long lasting surface coating and UV protectant for vehicle surfaces using nano technology. This advanced coating bonds with the vehicles surface to provide long lasting protection. Surfaces have a deep reflective shine that make colors deep and vibrant.
