

XTREME

2 STEP CLEANING SYSTEM

"2 step cleaning has never been
so easy to do. Just spray and walk away.
We didn't need to scrub at all."

Makes Cleaning
Easier, Faster, More Efficient!
Just Spray, Rinse, Walk Away.
No scrubbing needed.

Acid Truck Wash Step #1

Alkaline Truck Wash Step #2

DETERGENT

XTREME CLEAN

Step Two Alkaline Cleaner For 2 Step Cleaning

WHAT IS XTREME 2 STEP CLEANING?

When Xtreme Brite & Xtreme Clean are applied to the vehicle surface as a two step process, a resulting neutralizing reaction will activate the cleaning process. This dual stage process begins to break the bond of dirt and road film from the surface that doesn't occur with a single step process. Surfaces will be cleaner without the need for heavy scrubbing.

PRODUCT BENEFITS:

- ★ Formulated for the cleaning professional and automated truck wash systems.
- ★ Starts breaking down road film on contact.
- ★ Safe on glass.
- ★ High foaming to carry away all surface debris.
- ★ Formulated for easy neutralization.
- ★ Leaves surfaces cleaner than traditional cleaning process.

Instructions:

Always read the SDS before handling this or any chemical. Always prewet surfaces before applying chemical. Apply recommended dilution of chemicals to the surface from the bottom to the top of vehicle. Brushing may be required if there is a heavy build up of road film. Before the detergent has the opportunity to dry, rinse with fresh water from the top down, removing all the detergent. For best results apply Xtreme Brite to desired surface, then follow up with Xtreme Clean. The activation process will occur. High pressure rinse, using hot water if possible. For non maintained vehicles, extra scrubbing may be required. Allow to dry.

Dilution Recommendations:

Truck Washing	60-120:1
Bus Washing	60-120:1

Predilution For Use with direct injection through a downstream injector:

Container Size:	55 Gallon Drum Add to water	30 Gallon Drum Add to water	5 Gallon Pail Add to water
Truck Washing	7 Gallons Xtreme Brite 48 Gallons water	4 Gallons Xtreme Brite 26 Gallons Water	0.6 Gallons Xtreme Brite 4.4 Gallons Water
