Nano Detailer

Spray & Wipe Ceramic Detailer

CORE 3

Personal Attention

Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.

Experience

With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

PROTECTANTS

Nano Detailer

Spray & Wipe Ceramic Detailer

Provides Long Lasting Protection & Shine

What is Nano Detailer?

Now, you can add durable ceramic protection, water beading, and shine to your paint, wheels, glass, headlights, taillights, and more! Use it between washes, on top of waxes, to maintain your favorite ceramic coating on treated or untreated vehicles for tremendous results. Most other ceramics often rely on solvent or resin-based formulas that are temperamental and difficult for most people to use. Unlike other ceramics that require intense surface prep, Reflections can be applied between washes, at shows, and on virtually any exterior surface in mere seconds!

Product Use Benefits:

- Long Lasting surface protection.
- Contains SiO₂ and TiO₂ nano technology and silicone quats.
- Keeps water beading on surfaces.
- Vehicle surfaces have a deep clean shine.
- Long lasting protection.

Use Recommendations:

For best results, do not apply in direct sunlight and make sure the surface is cool to the touch before applying. Shake well.

Spray onto the surface, working one section at a time. Use a clean micro-fiber towel to gently wipe the area clean.

Use between washes to ensure a brilliant finish with durable protection.

Achieve Brilliant Shine In Seconds

By using the active SiO₂ ingredient in liquid form, Nano Detailer seals the surface of your paint, creating a superior mirror reflection and an intense ceramic crystalline shine. By adding incredible depth and clarity to any paint color, Nano Detailer gives all colors a show car like shine that stuns. Whether you have a ceramic coated car that you are looking to enhance or are looking to add incredible water beading,
