Mach One

Hard Water Alkaline Presoak

CORE 3

Core 3: Personal Attention

Every customer requires special attention and has their own demands put on them. Our staff will design and implement a program designed to fit your needs.

Core 3: Experience

With our full staff of formulators, chemists, & marketing professionals we have been bringing cutting edge products to market for over 70 years.

Core 3: Technology

Through daily contact with industry professionals, we are continuously updating and improving our products to make sure you perform at your best.

Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

PRESOAKS

Mach One

Alkaline Presoak For Hard Water Conditions

Formulated Specially For Hard Water Applications

What is Mach One?

A premium high foaming presoak detergent specially formulated for hard water applications. Starts breaking down road film on contact, preparing the surfaces for the brush cycle. Contains high levels of chelating agents to prevent hard water spotting and buildup. Formulated for operators who need an effective product without the extras. Also great for self serve prep guns. Formulated with ecco rinse technology.

Product Use Benefits:

- Long lasting alkali builders for hard water conditions.
- Economical per car use dilutions.
- Fast Acting.
- Can effectively be used in hard water applications.
- Prepares surfaces for detergent and foaming cycles.
- Contains corrosion inhibitors to help prolong equipment.

Use Recommendations:

- Tunnel or Conveyor Systems
- Automatic or Rollover Systems
